

Cost of Online Courses

Online courses with a Regular Outreach Course attribute provide an excellent option for students who have to be away from campus during the summer or require flexibility in course schedules during the fall or spring semesters. However, these courses do come at an additional cost, so it is important for students to know the costs associated with an online course in advance. These costs include:

- Regular per-credit-hour tuition rates
- The same university-wide/mandatory fees associated with on campus courses (*Student Activity Fee-General, Student Activity Fee-Athletics, Student Facility Fee-General, Student Facility Fee-Campus Recreation, Student Development Fee, Health Services Fee, Advising and Assessment Fee, Library Automation & Technology Fee, University Technology Infrastructure Maintenance Fee, Academic Facilities Fee, Academic Records Fee, Daily O'Collegian Fee, Transit/Parking Services Fee, Life Safety & Security Fee, Academic Excellence Fee, and Student Union Renovation Fee*)
- The same college based fees associated with on campus classes (e.g. college technology and program fees)
- An additional college based online course fee

Provided below is an overview, by college, of the per-credit-hour cost of online courses for summer 2017:
